

Why kids need help

Children are hurting. There are many reasons for children in large numbers living in painful and what seems like hopeless circumstances. Sickness, family breakdown caused by accident and death, crime, and abuse are just some of the causes. Many children have no place to call home so we are providing home and family. Education is often out of reach for many children so we support their efforts to achieve and also provide vocational training. For children, so much of what happens in their life is out of their control. Our heart is to help bring change for these children which will last their lifetime.

Two things change lives. Education and Safe Water.

These are the two most beneficial areas that bring change in communities today. These two services bring 4 times improvement for every dollar spent*. We help children enter or stay in school and we provide safe clean water for their villages.

Child Sponsorship

When you sponsor a child you help provide for their education. They receive care, training and mentorship. Your support helps children get closer to reaching their potential through education.

Safe Water Bores

You can contribute to another water bore being installed in a child's village. Or you can donate a whole bore yourself!

General project support donations

This helps children in various projects such as our special needs training centre, foster homes and areas

of most need. These projects require more help than single individual child sponsorships.

Corporate

Corporations seeking opportunities and effective ways to help bring change through meaningful projects can do so tax effectively by supporting Heart For Kids.

How is Heart For Kids changing lives?

No matter what country, children deserve to know they are loved and special and that they have the opportunity to become the person they were created to be.

We are either running our own projects or partnering with organisations who are already doing great work caring for children but who need help. We are connecting children who have great needs with those outside their country who have the heart, skills, gifts and resources to meet these needs.

Children living in poor rural communities would often need to leave school early to help provide income for their family. This of course impacts their education and ability to get good work in their adult life. The result is many children are

struggling to reach their potential due to poverty.

Over 50% of the 45 million children living in poverty in Indonesia are located in Java and Bali. Our work is currently serving these young people in Bali

Educational scholarships for children of all ages help them reach their potential.

Our programs are caring for orphans, children & young adults:

- Living in poverty
- With physical or intellectual challenges
- Whose family can't afford their education
- Young adults training as future community leaders

Helping is simple

Visit our website to learn about the various ways you can support this important work. You can give securely online or contact us by phone or email.

Our website details the sponsorship process and what you can expect regarding communications, letters etc.

Your generous financial support goes a long way and helps serve many children in China, India and Indonesia.

Heart For Kids is a Christian organisation making good use of your financial support to impact the lives of children in need.

You can make a difference

We can't all do everything, in other words your support and participation enables others, our team, to have hands-on impact in the lives of those in need. So you are having a very hands-on impact in the lives of many in need.

We are currently helping children and young adults in China, Indonesia and India. You can nominate which country your gift goes to or simply ask us to use it where ever it's needed most.

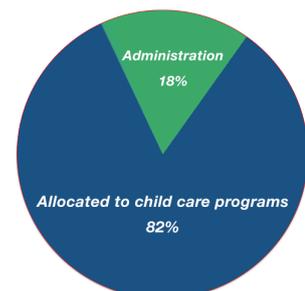

If you will sponsor a child or give a gift, you will make a difference.

My future would have been completely different if I had not been able to attend school and eventually university because of the help I received.

Gang Shi, China
